ABSTRACT

This file provides a template for writing papers for the 1st ICGU conference. The conference proceedings will be published in an electronic format. The full paper in MS-Word 2010 file shall be written in compliance with these instructions.

An abstract not exceeding 100 words should appear after the title of the paper, the names of the authors and the contact information of the corresponding author. It should be an explicit summary of your presentation that states the problem, the methods used, and the major results and conclusions. It should be **single-spaced in 12 point type, and Times New Roman font.**

Keywords: Up to four keywords, 10 point type, left-justified

1 INTRODUCTION

It is expected that authors will submit carefully written and proofread material. **The maximum of paper length is 8 pages and single-spaced in 12 point type with Times New Roman font. Moreover, place the page number in your paper (centred at the bottom of page).**

Papers should be written in English, clearly describe the background of the subject, the authors work, including the methods used, and concluding discussion on the importance of the work.

2 PAPER FORMAT

The uniform outlook will help the reader to follow the proceedings. This can be obtained most easily if authors use this template file to construct their papers. Please note the following details: this template is an A4 format with 25 mm margins left, top and

bottom, and 25 mm margin right. All text paragraphs should be single spaced, with first line indented about 10 mm (0.4 inch). Double spacing should only be used before and after headings and subheadings as shown in this example. Position and style of headings and subheadings should follow this example. No spaces should be placed between paragraphs.

2.1 Fonts

The body of your paper should use 12-point Times New Roman font. The styles available are bold, italic and underlined.

It is recommended that text in figures is not smaller than 9-point font size.

2.2 Tables and Figures

Figure captions and table headings should be sufficient to explain the figure or table without needing to refer to the text. Figures and tables not cited in the text should not be presented.

The following is the example for Table 1.

Table 1. Title of Example Table (12 point type, bold, Times New Roman)

AAA	Type X				Type Y			
	Item 1	Item 2	Item 3	Item 4	Item 1	Item 2	Item 3	Item 4
BBB	18	22	21	13	17	23	20	10
CCC	24	20	21	28	26	23	20	19

Tables and figures should be placed close after their first reference in the text. All figures and tables should be numbered with Arabic numerals. Table headings should be centred above the tables. Figure captions should be centred below the figures,

2.3 Equations

Each equation should be presented on a separate line from the text with a blank space above and below. Equations should be clear and expressions used should be explained in the text. Type all equations. Flush the body of equation in the middle. Equations should be numbered in parentheses. Type equation numbers in Arabic numerals in parentheses. Example:

$$x^2 + y^2 + z^2 = 1 \quad (۱)$$

۲, ۴ **References**

References should be cited in numerical order and according to their order of appearance. They should be numbered and enclosed in brackets.

In the case of two citations, the numbers should be separated by a comma [۱,۲]. In the case of more than two references, the numbers should be separated by a dash [۳-۵].

۳ **SUBMITTING THE PAPER**

The full paper has to be submitted electronically in both .doc (MS-Word ۲۰۱۰) and pdf formats via the website of the conference (www.greenuniversity.ui.ac.ir). Two files including pdf and word formats should be submitted for each paper.

۴ **CONFERENCE PROCEEDINGS**

Final papers will be compiled into the conference electronic proceedings.

۵ **CONCLUSION**

Conclusions should state concisely the most important propositions of the paper as well as the author's views of the practical implications of the results.
